

DECLARATION OF COMPLIANCE - Reach Declaration -

Date: 24.01.24

Dear Most Valued Customer;

In June 2007, the European Union Regulation (EC) 1907/2006 concerning the Registration, Evaluation, Authorisation and Restriction of Chemicals (REACH) was first released. This Regulation establishes specific duties and obligations for companies in the European Union (EU) that manufacture or import substances on their own, in preparations, or in articles.

The products KAT provides to your organization meet the REACH criteria for an "Article", as opposed to a "Substance" or "Preparation". Articles are exempt from the REACH requirements if (a) the Article does not contain a substance of very high concern (SVHC) or candidate substance in an amount exceeding 0.1% weight by weight, and (b) if substances present in the Article in excess of 1 ton per year per importer are not expected nor intended to be released. Accordingly, we foresee no registration or pre-registration requirement for the products we supply to you.

KAT is constantly monitoring the substances of very high concern (SVHCs), as defined by REACH, in our products. This will be an on-going process since the complete list of SVHCs will be released in stages. KAT products (articles) do not contain Substances of Very High Concern (SVHC) above the threshold value declared as per ECHA till 23.01.2024 with 240 SVHC (<http://www.echa.europa.eu/candidate-list-table>).

We also certify that therefor we are compliant with all environmental thresholds which were required by the automotive industry (GADSL)

The response provided by KAT is accurate to the best of our knowledge for further inquiries please contact me via e-mail, or phone.
